Bass (Beginner to
Intermediate**

Michael Guardiola is a professional Musician with vast experience in several music genres such as rock, rock fusion, blues and more. He has worked as an audiovisual producer and audio engineer for over five years which gives him extra edge in the music industry.

He has been studying music and his instrument(s) for over 15 years and has taught countless students to help them reach their musical goals. From beginner, to intermediate, to an advanced player, Michael provides his students with a solid music foundation so they can get the most out of their instrument.

Michael's teaching system is module-based, so his students always know what skills they need to work on next and how they relate to each other. They explore the Acoustic Guitar, Electric Guitar, or Bass to grow confident while play as they are learning their favorite songs. Also, for those students who have specific goals and want to go to the next level (such as recording professionally and/or learn how to perform in front of live crowds) Michael will teach them how to get there every step of the way!

On his free time. He also works as a studio session musician online and in the Hands In Motion Music Recording Studio. He performs professionally for private events as public venues from time to time.

Michael's music philosophy matches his passion for music education. "I Believe in the power of music that lies within each of us."
