

Jennie Louis

Early Childhood Music Instructor

Beginner Piano Music Fundamental (Ages 5–7)

Beginner & Intermediate Voice (Ages 5-16)

Instructor Certification by Hands in Motion Music Academic Program

Born in Tampa, Florida and raised in a Caribbean-rooted home filled with rhythm and song, Jennie Louis' musical journey began in the heart of her childhood—singing in church alongside her mother, writing poems that bloomed into lyrics, and embracing music as her lifelong language of expression.

Though life temporarily paused her formal training after middle school chorus and theater, Jennie's passion never waned. She continued developing her artistry through songwriting, karaoke apps, and professional lessons in voice, piano, and guitar. Her resilience and hunger to grow eventually led her to be personally mentored and trained by two-time GRAMMY® Award-winning producer, pianist and educator, Lannie Battistini, founder of Hands In Motion Music School. Through this training, Jennie became a certified and compassionate educator, dedicated to teaching children the joy and fundamentals of music.

With over 9 years of experience teaching music to children at her local church, Jennie brings both warmth and structure to every lesson. Her approach celebrates each student's unique journey and encourages them to express who they are—whether through melodies, lyrics, or simply showing up with curiosity and learning the joy of music.

As a singer-songwriter and Christian recording artist herself, Jennie released her first single, *Secret Flower*, worldwide on July 4, 2025, under the artist's name “Da’Hanna” (her middle name). Her music, like her teaching, carries a message of self-love, authenticity, and emotional depth.

Teaching children music, for Jennie, is by far the most rewarding thing she has done in her life. Every laugh, every note, every lightbulb moment in a student's eyes reminds her why she shows up—with passion, purpose, and the unwavering belief that music can shape a child's heart for a lifetime.
